

## **Analyst – Project Finance – Renewable energy**

Based in Singapore

**Due to constraints related to immigration laws, only permanent residents of Singapore or nationals of Singapore will be considered. No exceptions will be made.**

### **Company description**

Finergreen is a financial advisory company specialized in the renewable energy sector. Founded in 2013, the company has already raised USD 3.4 billion of financing globally.

Finergreen established its presence in Asia in 2017, working in various sectors across renewable energy in South and Southeast Asia, with a growing exposure to Northeast Asia. With over five years of experience in the region, Finergreen has closed over 20 projects, raising both equity and debt for our clients in addition to strategic advisory projects. Going forward, Finergreen anticipates more demand for renewable energy financing as countries line up to reach net zero by 2050. Finergreen expects to leverage its experience in the region and continue structuring the financing renewable energy projects, while also expanding our reach into other types of technology and countries.

The company has 3 main pillars of activities:

- **M&A:** Mergers & Acquisitions advisory for renewable energy companies and/or projects;
- **Project Finance:** Financial advisory for the structuring and raising of equity and/or debt for renewable energy assets;
- **Strategic Advisory:** Strategic advisory (with a strong financial focus) on renewable energy markets.

Operating in the Midcap segment (USD 10 - 150 million), the company has expertise in the financial, legal and transactional aspects of fundraising. :

- **Financial:** project financing (raising and structuring debt or project equity), asset M&A and corporate M&A;
- **Legal:** negotiation and implementation of the legal documentation related to transactions (divestment agreement, loan agreement, etc.) in partnership with lawyers;
- **Transactional:** process management, including management of timelines, virtual data room management and investor/lender Q&A, both for competitive and bilateral processes

The company has opened several offices abroad to diversify its activities in the international market: Abidjan in 2016, Singapore in 2017, Dubai in 2018, Mexico and Nairobi in 2019, Madrid in 2020, and Sao Paulo, Cape Town and Budapest in 2021.

Besides its historical activities, Finergreen is constantly expanding through new activities and new locations:

- New markets
- New technology types (wind, biogas, hydrogen, storage and other sustainability assets)
- Diversification towards corporate and power purchase agreement (PPA) advisory

**Position summary**

As an analyst, you will be attached to an associate and a VP who will follow your progress, and you will work directly with the associates/VPs and other analysts at our Singapore office. You will assist them on various advisory missions: equity financing or debt financing (project analysis, financial modelling, drafting of business plans and information memorandum documents, ad-hoc studies) and M&A deals.

As part of Finergreen's growth, you may also be required to carry out market research, to help source projects and clients in new markets and to attend specific events to develop the company's network.

You may also work in collaboration with the broader team on communication materials related to the renewable energy sector (interviews, market studies, etc.).

In this small company (65+ people at the time of writing), you will get the chance to work in a young and dynamic environment while taking part in all the aspects of our diverse activity. You will be able to refine your financial skills (financial structuring, balance sheet analysis, modelling...), will gain solid knowledge related to financial transactions (project financing or M&A deals) while evolving in an entrepreneurial framework where everyone participates in the growth of the company and where initiatives are very welcome.

**Requirements**

You are a university graduate in finance or engineering. You would ideally also have had relevant working experience of up to three years in a renewable energy company or have been exposed through your role to infrastructure and/or project finance.

As such, you would possess an understanding of financial statements, especially for infrastructure projects and/or companies. In addition to knowledge and/or affinities for the renewable energy sector, we would expect you to be intellectually curious and dynamic with a strong spirit of initiative, in order to integrate into a young structure that is continuously evolving.

Due to our client and investor base, Asian language skills (Thai, Vietnamese, Korean or Japanese) would be an advantage, and knowledge of the renewable energy sector and banking industry in any Southeast/South/Northeast Asian country would be a strong asset.

Applicants must be long-term residents or nationals of Singapore (for immigration/visa purposes).

**Conditions**

The position is based in Singapore, with competitive benefits. Remuneration will be commensurate with the level of experience of the candidate.

The target date of commencement for this role will be April 2022.

Please send your CV and cover letter in either PDF or Word to [rhisia.taruli@finergreen.com](mailto:rhisia.taruli@finergreen.com). We will contact you directly if you are shortlisted.
