

Analyst – Project Finance – Renewable energy

Based in Singapore

Due to constraints related to immigration laws, only residents of Singapore will be considered. No exceptions will be made.

Company description

Finergreen is a financial advisory boutique specialized in renewable energies and the energy transition. Founded in 2013, the company now operates around the world through 10 offices with more than 70 collaborators in total.

We advise our clients (mostly independent industrials, financial institutions or utilities) on strategic projects in either equity (M&A, venture or growth capital) or debt (project finance, private placements, LBOs) transactions. The company also assists fund managers on their fundraising processes.

We have advised close to 150 financial transactions to date which have led to the development of more than 15 GW of renewable capacity and which have helped startups become cornerstone players of the energy transition around the world.

We strongly believe that financial expertise is required as a fundamental driver of success for entrepreneurs in the energy transition industry given the large amounts of capital that need to be deployed on the long term to drive significant change on our planet.

With a strong track record of working with family businesses and entrepreneurs but also with large and international financial institutions, Finergreen is a recognized advisor in the industry while remaining true to the entrepreneurial spirit that was at its inception.

Finergreen works for a wide panel of key market-makers, either private or public and with high profiles which translates into best-in-class projects. Our goal is therefore to create a globally recognized brand of financial advisory experts specialized in the renewable energies sector.

More information available on our website: www.finergreen.com and our LinkedIn page.

Position summary

As an analyst, you will be attached to an associate and a VP who will follow your progress, and you will work directly with the associates/VPs and other analysts at our Singapore office. You will assist them on various advisory missions: equity financing or debt financing (project analysis, financial modelling, drafting of business plans and information memorandum documents, ad-hoc studies) and M&A deals.

As part of Finergreen's growth, you may also be required to carry out market research, to help source projects and clients in new markets and to attend specific events to develop the company's network.

You may also work in collaboration with the broader team on communication materials related to the renewable energy sector (interviews, market studies, etc.).

In this small but growing company (70+ people at the time of writing), you will get the chance to work in a young and dynamic environment while taking part in all the aspects of our diverse activity. You will be able to refine your financial skills (financial structuring, balance sheet analysis, modeling...), will gain solid knowledge related to financial transactions (project financing or M&A deals) while evolving in an entrepreneurial framework where everyone participates in the growth of the company and where initiatives are very welcome.

Requirements

You are a university graduate in finance or engineering. You would ideally also have had relevant working experience of up to three years in a renewable energy company or have been exposed through your curriculum/past role to infrastructure and/or project finance.

As such, you would possess an understanding of financial statements, especially for infrastructure projects and/or companies. In addition to knowledge and/or affinities for the renewable energy sector, we would expect you to be intellectually curious and dynamic with a strong spirit of initiative, in order to integrate into a young structure that is continuously evolving.

Due to our client and investor base, Asian language skills (Thai, Vietnamese, Korean or Japanese) would be an advantage, and knowledge of the renewable energy sector and banking industry in any Southeast/South/Northeast Asian country would be a strong asset.

Applicants must be long-term residents or nationals of Singapore (for immigration/visa purposes).

Conditions

The position is based in Singapore, with competitive benefits. Remuneration will be commensurate with the level of experience of the candidate.

The target date of commencement for this role will be October 2022.

Please send your CV and cover letter in either PDF or Word to rhisia.taruli@finergreen.com. We will contact you directly if you are shortlisted.
